TO : Chief, Intelligence School

DATE: 19 October 1960

FROM : Chief, Orientation Faculty

SUBJECT: Weekly Activities Report #37, 12 - 18 October 1960

## 1. Intelligence Review Course

Final plans have been completed for Intelligence Review #1 which begins on 24 October. Course schedules have been sent to all speakers and panelists. Later this week we plan to send a summary of the backgrounds of the students to the speakers, to assist them in preparing their presentations. Present enrollment stands at thirty-five.

## 2. Exhibits

The Orientation Faculty met on 18 October with 25X1A9A determine whether there is a need to change the starting time of the Intelligence Products Exhibit. Mr. 25X1A9A has developed several good ideas for accelerating the setting up of the exhibit, and felt that with his own two assistants in addition to a work crew reporting promptly at 8:30, he could have it ready by 9:45, the present scheduled time. We agreed to continue on this basis, at least for the present.

## 3. Special Security Officers Orientation Course

25X1A9A Mr. 25X1A9A is developing the schedule for this course and has had several conversations with Mr. 25X1A9A. The course will be almost identical in content to the regular IO except that more use will be made of reading materials, and staff members will be giving most of the lectures. There will be slightly more emphasis of DD/S functions than in our regular course.

## 4. Intelligence Orientation

25X1A9A 25X1A9A has reviewed and brought up to date the lecture on the organization of the Clandestine Services. He is also combining the two lectures on psychological warfare and covert action, to produce a single up-to-date lecture.

## 5. Current Intelligence Briefing

About 65 people attended the Current Intelligence Briefing on 14 October. The audience was most responsive, and remained for a ten-minute question period.
